

Subject Choice S3

Subject Choice

In S3, you will follow a more personalised curriculum. There are core subjects which all pupils will continue to study. You will then select a further 6 subjects which you wish to study in more depth. You will also select 2 'reserve' choices.'

There is free choice in choosing your subjects - you are not obliged to take a subject from any specific curricular area - but you **MUST** plan ahead to S4 when you will further personalise your curriculum. If you drop a subject at the end of S2, you will not be able to take this subject in S4. This will be explained to you in SE and assemblies in more detail.

This booklet summarises the subjects available to you. There is a more detailed booklet available which you should also refer to.

Please be aware that there is no guarantee a subject will run. If you have selected a subject which will not run we will discuss this with you.

Further Information

Subject Choice S3

Core Subjects

English

English remains central to everyday life and is a requirement for all pathways after school. As such, S3 is an important year for students, in honing their skills and abilities in the BGE, but also in preparation for National Qualifications.

The course outline includes the following projects and opportunities to work on social and life skills, as well as skills for work:

- study of more complex class texts, exploring key themes
- using class texts for practice mini-essay writing
- reading and listening skills with practice assessments
- research projects linking to practice Added Value Unit
- debates and discussions

S3

Core Subjects

Maths

Maths is important in our everyday life. It equips us with the skills we need to interpret and analyse information, simplify and solve problems, assess risk and make informed decisions. The S3 Maths course includes learning about the following topics:

- Algebra
- Geometry
- Statistics
- Graphs
- Equations
- Time / distance / speed
- Measure
- Basic number skills
- Problem solving

Subject Choice S3

Core Subjects

French

Everyone will study French two periods a week in S3. You can also continue to study both languages by opting for Spanish as an elective.

Languages play an important role in modern life and many careers and courses value or require a qualification in a Modern Language.

The S3 course aims to:

- develop communication skills
- enhance understanding of other cultures
- improve literacy skills in their first language and the language they are learning
